-2-

25X1A

- c. One cable-laying vessel (No. 41) of 200 tons which serves the above school as a training ship is also based at Warnemünde.
- d. One coaler of 150-500-ton capacity which makes a round trip to service ships at sea once every two weeks has Warnemünde for its home port.
- e. The Kröger shipyard is being enlarged for the construction of large seagoing fishing vessels for the Russians.
- f. Rostock and Warnemünde harbors are blocked off by high wooden fences with sentry towers placed every 500 meters. These are manned night and day.
- g. The German port laborers work three daily shifts - including Sundays and holidays.
- h. According to a Derutra official, monthly loadings in the two harbors total 120,000 tons: 85% for Russian ports, 8% for Denmark, 4% for Sweden, and the balance for Germany, Finland, and England. The bulk of the traffic is in coal.
